

# Computer module calculating standard times in manual assembly processes

## Contact information

### Address: Main researchers:

- JOSE MANUEL ARENAS REINA

[josemanuel.arenas@upm.es](mailto:josemanuel.arenas@upm.es)

### Other UPM researchers:

- Daniel Hinarejos Martín

## Technological Offers type

Software

## Research and innovation areas

- Tecnologías digitales, Inteligencia Artificial, ciberseguridad, 5G, robótica

## Where?

Industrial design and manufacture RESEARCH CENTRE STRUCTURAL MATERIALS (CIME)

## Software description

The computer module developed makes it possible to get the standard time for manual assembly processes using tabulated times as a reference. The program or application bases are the same as those for the classic calculation of levelled times.
